

BSG, THE COASTAL INFRASTRUCTURE SPECIALISTS, INVITES YOU TO ATTEND...

HOW FEMA FLOOD MAPPING WILL IMPACT YOU

SOLUTIONS FOR PRESERVING PROPERTY VALUES & DEVELOPMENT POTENTIAL

BIRDSALL SERVICES GROUP
ENGINEERS & CONSULTANTS

Join us for a **free** informative session on the potential impacts of FEMA's flood mapping revisions, and engineering solutions to preserve property values and development potential. The forum is interactive, and we will take questions and offer one-on-one sessions with our coastal infrastructure specialists after a brief presentation.

PLEASE RSVP BY FEBRUARY 4TH

THURSDAY
FEBRUARY 7, 2013

MODERATOR

ANDY RAICHLE, PE | SR. VICE PRESIDENT – LAND & MARINE ENGINEERING

Mr. Raichle is a coastal infrastructure specialist with nationwide experience engineering a broad range of waterfront development and maritime projects. His experience with coastal storm response began with 1992's Hurricane Andrew, and he has amassed a substantial portfolio of storm and flood-related engineering projects ever since. Mr. Raichle specializes in the planning, design and construction of coastal and port structures, submerged utility transmission, dredging, and shore protection projects. He has an expert understanding of the technical, political, and regulatory specialties that are unique to the process of waterfront development and remediation, and has applied these skills throughout the U.S. and the Caribbean.

PANELISTS

JEFFREY JANOTA, PP, AICP | VICE PRESIDENT – PLANNING

Mr. Janota has over 18 years experience in environmental and urban planning, including land use planning, master plans, zoning ordinances, vision and concept plans, redevelopment planning, environmental permitting, and downtown revitalization.

ELISSA COMMINS, PE, PP | SENIOR ASSOCIATE – PRINCIPAL ENGINEER

Ms. Commins is a Senior Associate who represents coastal communities and specializes in site design and development, land use and zoning ordinance revisions, streetscape design, hydraulics, hydrology, water and wastewater management planning, and contract administration. As the municipal engineer for the Township of Brick, one of the areas hit hardest by Hurricane Sandy, Ms. Commins has been instrumental in leading the township through the long process of recovery for the battered Barrier Island.

CAROLYN WEAVER | GRANTS & FUNDING MANAGER

Ms. Weaver has more than 14 years of experience in securing applicable Federal, State, and private grants. She is an expert at implementing Strategic Grants Management Programs for clients to identify capital improvements and other priorities. Ms. Weaver is experienced in working with FEMA Hazard Mitigation grants and projects in New Jersey and Pennsylvania.

ROBERT FIORILE | REGULATORY SPECIALIST

Mr. Fiorile has over 15 years experience of regulatory experience, with a specialty in the coastal environment. He has a comprehensive understanding of the local, state and federal regulations that govern coastal development, and has been the agent of record for permits to construct some of the region's most unique and substantial infrastructure.
