

# BSG Hurricane Disaster Assessment

*The tri-state is bracing for one of the biggest hurricanes ever to hit the east coast. Hurricane Sandy is expected to have a major impact on our area, with experts estimating its potential damage to be upwards of \$1 billion.*

BSG's staff of engineers and professionals is equipped to provide you with **immediate**, comprehensive engineering services to help you prepare for an impending disaster. BSG's expert professionals are uniquely qualified to offer individualized hurricane disaster assistance that suits the needs of your town, helping to avoid potential catastrophes with safety at the forefront of our endeavor.

BSG provides the following services:

- **Disaster Preparation & Inundation Mapping**
- **Flooding Assessments**
- **Bridge, Culvert & Roadway Inspections**
- **Evacuation Planning & Coordination**
- **OEM Coordination at the EOC**
- **Emergency Operations Assistance**
- **Stormwater & Shoreline Assessments**
- **Bulkhead & Pier Inspections**
- **Compliance Assistance**
- **Assistance with Post-Disaster FEMA Evaluations & Reporting**

If you need assistance, please contact your BSG representative or one of our Storm Damage Assessment Team Leaders listed below:
